## Elegant Apple or Pear Appetizers

This fast appetizer looks elegant and really all you do is slice up a piece of fruit, grab some cheese and drizzle something on top. No one needs to know it is a last minute idea if you didn't expect your guests to stay for dessert, or to show up early in need of appetizers.

### Ingredients:

1 apple or pear (sliced in thin rounds)  
1-2 oz. goat cheese  
Pumpkin butter or honey

### Directions:

Top apple or pear slices with small triangles of goat cheese. Top with a drizzle of honey or a dollop of pumpkin butter. Enjoy!
